### **The Changing Body: Health, Nutrition, and Human**

It is normal for changes to start as early as 8 years old or as late as 13 years old. Puberty starts when your brain sends signals to certain parts of the body to start growing and changing. These signals are called hormones. Hormones are chemicals that control body functions. As your breasts start

Changing Your Habits for Better Health. Are you thinking about being more active? Have you been trying to cut back on less healthy foods? Are you starting to eat better and move more but having a hard time sticking with these changes? Old habits die hard. Changing your habits is a process that involves several stages. Sometimes it takes a while before changes become new habits. And, you may ...
